* EUR 1 of revenue achieved by Messe Düsseldorf or DCSE generates the following revenues within Greater Düsseldorf: EUR

About the study:

All figures have been taken from “Socio-economic Effects of Düsseldorf Trade Fairs and Other Events of Düsseldorf Congress Sport & Event GmbH on Düsseldorf, on the State of North Rhine Westphalia and on the Federal Republic of Germany”, a study by the ifo Institute, the Leibniz Institute for Economic Research at the University of Munich. The survey covered approx. 9,700 exhibitors and visitors at representative trade fairs on the premises of Messe Düsseldorf GmbH and approx. 4,300 persons who attended events organised by DCSE GmbH. These results and various projections served as a basis for calculating the overall expenses and the impact on the purchasing power, employment situation and taxes in an average year of events (2013-2016).
