Of up to 50 Mbit/s Premium access symmetric incl. 4-port LAN router	4,299.00		

You will find detailed technical information for both single products in B33 and B34!

Example:

You need unlimited internet access at your booth for four fixed terminals and in addition wifi access for 5 notebooks and 5 smartphones or tablets. Internet access at the fixed terminal should be fast and reliable. Access for the wireless devices should be easy to use. We would recommend a 6 Mbit DSL connection for a price of 699 € per show and a package for 10 simultaneous wifi users for a price of 279 € per day. The installation of the cable to the positions of the four terminals will be charged with 59 € per port. In a continuous three day fair the total price would be 1,493 € excl VAT. The connection for the terminals will be installed by our technicians and a router will be provided with four ports for rent. The wireless signal is broadcasted by our access points installed in every hall. There is no additional wireless router or access point required on your stand. Compared to a single order you save 279 €!
